## **2019 Signifies Corelation's Decade of Success**

**SAN DIEGO - January 28, 2019:** Corelation, Inc. is celebrating its 10-year anniversary of providing the best core processing software with the best service. Since its inception, the organization has diligently focused on delivering software that holds true to its “More in the Core” philosophy and creating a culture that attracts highly-motivated industry professionals.

To date, Corelation has signed 97 clients equaling over \$47B in assets and over 4M in members. The team signed 33 clients in the first five years and almost doubled that number in the second half of the decade. The 50<sup>th</sup> client was signed in 2016, and they are rapidly approaching their 100<sup>th</sup> client. Who will it be?

What started as a team of three executives (Chairman, President/Chief Executive Officer, and Chief Technology Officer) in a small Point Loma office, has now multiplied to 160 employees in a state-of-the-art facility back in Point Loma, but in the heart of San Diego's Liberty Station community. The executive team now includes a Chief Financial Officer, Chief Operating Officer, and four Directors representing Administrative Services, Business Development Services, Conversion and Education Services, and Client Relations.

“Thank you to all those who have been a part of our success. We have grown as an organization and our software has matured to become the industry's finest. The team and I look forward to continued

collaboration with our credit union and vendor partners, and cultivating new relationships in the years to come.” states Corelation President/CEO Theresa Benavidez.

**About Corelation, Inc.**
