FOR IMMEDIATE RELEASE

Corelation and WRG Extend Long-time Partnership

Preeminent core processing provider and technology CUSO extend their multi-year partnership to deliver innovative hosted core processing solutions to credit unions

Pasadena, Calif. – August 10, 2020– Leading credit union core processor Corelation, Inc. and Wescom Resources Group (WRG), a technology CUSO, today announced a multi-year extension of their long-time partnership. Through the agreement, WRG provides hosting services for Corelation’s KeyStone core processing system, empowering dozens of credit unions to innovate, grow and excel.

Since 2012, WRG’s nationwide Managed Services platform has supported Corelation’s rapid growth and now serves three dozen credit unions with asset sizes ranging from \$50 million to more than \$2 billion. With a focus on People, Products and Processes, WRG’s Managed Services solution acts as an extension of the credit union’s in-house team, and offers a unique, cost-effective blend of leading technology infrastructure, outstanding service and process expertise. Through this collaborative effort, client credit unions experience all the processing speed and flexibility of in-house systems, without the associated hardware, infrastructure and compliance costs. At the same time, credit unions enjoy fully automated job processing and no server maintenance, along with exceptional 24-hour support by knowledgeable client support and computer operations staff.

“We are excited to extend our partnership with Corelation,” says David Cerwinski, President of WRG. “Through our shared values and commitment to the credit union movement, our two organizations provide cooperatives across the country with a secure, reliable and cost-effective platform for serving their members’ needs. With this extension agreement, we look forward to continuing to invest and innovate for the benefit of our mutual clients.”

“As one of our strategic partners, WRG exemplifies and supports Corelation’s service culture, vision, and journey,” says Theresa Benavidez, President of Corelation. “Through the WRG-Corelation partnership, our clients receive the benefits of seamless integration, a secure platform and unflinching service. WRG has provided incredible service to our mutual clients for the past eight years, and we are thrilled to continue this relationship for years to come.”

Corelation is also excited to announce its first-ever virtual annual client conference will be held on October 6-7, 2020. Learn more at www.corelationinc.com.

About Wescom Resources Group

Backed by Wescom Credit Union, one of the nation's largest credit unions with over \$4 billion in assets and nearly 200,000 members, Wescom Resources Group provides credit unions with advanced technology solutions that increase their competitive edge.
