Las Colinas Federal Credit Union Successfully Converts to KeyStone, Marking 21st Remote Conversion for Corelation

SAN DIEGO - March 15, 2021: To harness the efficiencies of nimble, modern technology, [Las Colinas Federal Credit Union](#) (\$87 million assets; 9,535 members; Irving, TX) has successfully converted to a new core processor: [Corelation's KeyStone](#). Las Colinas FCU is now officially live on KeyStone after the nearly year-long conversion project was completed from start to finish with the two organizations collaborating and working entirely remote.

“Corelation offers everything you want in a conversion experience, from the people and processes, to the resources and documentation at your fingertips,” remarked Las Colinas FCU Chief Executive Officer Kevin J. Scott. “The entire Corelation team is sharp, insightful, patient, and kind. I am not exaggerating when I say that in my nearly two decades as a credit union executive, the conversion to KeyStone has been the most positive vendor experience I have ever had, especially in terms of people.”

The two organizations have worked closely to ensure a smooth implementation. Scott noted that the good chemistry between the two teams and Corelation's methodical processes and project planning ensured that conversion milestones were always completed on time.

From a technology standpoint, KeyStone's open architecture was the preeminent factor in Las Colinas FCU's decision to sign with Corelation last year. The ability to pivot between third-parties to integrate with the best-in-class solutions was absolutely critical for Las Colinas FCU.

“Credit union leaders: take care of the future version of your credit union by partnering with a progressive core processor,” stated Scott. “Technology is imperative to us, but the deciding factor in

selecting Corelation was the people and the culture. You can feel the unifying set of values and defined culture with Corelation - those things don't happen by accident. From that vantage point, Las Colinas FCU made the perfect choice in selecting Corelation."

"The synergy between our two organizations persevered through the remote work environment, resulting in a smooth conversion that has set the stage for future success for Las Colinas Federal Credit Union," said Corelation President/CEO Theresa Benavidez. "I am so proud of the accomplishments of both of our organizations."

About Corelation, Inc.

Based in San Diego, CA, Corelation is the innovative core processor for today's credit union. In terms of industry experience, Corelation's staff has dedicated their careers to creating core systems and providing unparalleled client service. For more information, visit www.corelationinc.com.

About Las Colinas Federal Credit Union

Since our humble beginnings in 1955, LCFCU has grown and is a 'lasting home' to so many. This small but mighty Credit Union serves everyone from elementary children working at their Student Run Branches to Global partners such as Mary Kay, Signet, The Container Store, and Haggar. LCFCU's robust technology allows it to service a large membership base. But it is the 'people helping people' spirit that transcends technology and change.
